

IN EMERGENCY FOR ADDISON'S DISEASE

IN EMERGENCY FOR ADDISON'S DISEASE

In case of unconsciousness, 100 mg SoluCortef should be injected immediately!

Conditions which must be treated promptly:

Vomiting, infection, flu, diarrhea, burns, trauma, etc. Treatment for adrenal crisis:

100mg SoluCortef I.V. and isotonic saline I.V. until oral medication is tolerated.

It is very important to treat immediately, even if the diagnosis has not yet been confirmed by lab tests.
